

# weLOAD 7500

## Product details

- High-performance infeeders for 2 on 2 applications of unstable portions
- Special machine housing allows horizontal portion transport

[View online](#)

## Advantages

- Smooth portion transport over all conveyor units of the infeeders (gentle transport)
- Optimized portion flow
- Precise infeeding accuracy
- Optional sorting conveyor for rejecting missing portions
- Compact and uniform design of all machine stands (less space required and better accessibility)
- Complete software integration in Weber-
- Empty package reduction (optional)
- Twist correction (optional)
- Automatic track position correction (optional)

## Weber weLOAD: fully automated precision belt loading for increased hygiene.

The scalable weLOAD model range offers solutions from infeeders for standard applications to high-end specialists and can therefore be flexibly adapted to your individual needs. In addition to an extremely compact footprint that allows better accessibility to all areas, the weLOAD infeeders impress with an optimized portion flow and smooth portion transport. The special "GentleTransport" software makes it the perfect solution for sensitive products and applications and generally facilitates full automation without requiring subsequent manual correction or monitoring.

### Presentation

Weber means: service across the board.

#### Weber Upgrades make it possible.

##### New tasks, old machines?

The tasks and challenges in production have grown? To meet this, we offer a wide variety of upgrades for existing lines that are optimally suited to new requirements: whether retrofitting individual components to optimize production or automating existing lines to raise hygiene standards. This is sustainable and economical - and also allows you to stay up-to-date and grow with a manageable investment.

#### Weber Guardian.

##### A safe plan for your production.

Only those who listen can understand. And those who understand can act. With our Weber Guardian program, we harmonize people, machines, and processes to get the most out of production. From preventive maintenance and inspection through targeted personnel development to production support and optimization.

#### Weber Portal.

##### Networked thinking, handling together.

You will find everything about your Weber equipment bundled in your personal Weber Portal. Compact, individual and interactive. From your customer profile and that of your machines to e-learning on your setup as well as convenient spare parts ordering and service offers. Are you already registered?

We are looking forward to hearing from you.
